PROFESSIONAL SUMMARY

Certified Salesforce Developer with 3.5+ years of end-to-end experience designing, developing, and deploying scalable Salesforce solutions. Proficient in Apex, Lightning Web Components (LWC), Salesforce Flows, REST/SOAP API integrations, Einstein AI, and Agentforce. Hands-on expertise with Salesforce Commerce Cloud (SFCC)—including SFRA, PWA Kit, SCAPI/OCAPI, and Business Manager—delivering high-performance digital commerce experiences. Proven track record of measurable business impact.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Clouds:** Service Cloud, Data Cloud, Sales Cloud
- **Salesforce:** Apex, Flow, LWC, Visualforce, Einstein, Omni-Channel, SOQL/SOSL, Embedded Service & Experience Sites, etc.
- **Salesforce Commerce Cloud (SFCC):** SFRA, SiteGenesis, PWA Kit, Business Manager, SCAPI/OCAPI, Services, Jobs, Hooks, Promotion & Campaign, etc.
- **Programming Languages:** Javascript, TypeScript, jQuery, SQL, HTML/ISML, CSS/SCSS, and C++.
- **Version Control Systems:** DevOps Center, Change Sets, BitBucket, Git, GitHub.
- **Project Management Tools:** Jira, Confluence.
- **Tools:** Postman, Lightning Studio, SourceTree.

PROFESSIONAL EXPERIENCE

Astound Digital

September 2022 - Present

Tourism Industry | SFCC (PWA Kit) Backend Developer

- Led end-to-end development of a complete user journey in SFCC PWA Kit, covering product listing, product detail pages, cart management, checkout, and order placement, significantly enhancing the overall e-commerce experience.
- Implemented third-party API integrations to synchronize the PWA Kit with the legacy platform, ensuring real-time data consistency across all user actions and systems.
- Developed and scheduled automated SFCC jobs and services to call third-party APIs for generating and maintaining core commerce entities, including catalogs, price books, inventories, and stores—resulting in a 24% increase in order rate and strong positive customer feedback on UI improvements.
- Contributed to post-launch support by working directly with clients to identify, troubleshoot, and resolve production issues released in Phase 1, ensuring system stability and customer satisfaction.

Tourism Industry | Salesforce Developer

- Co-developed an NLP-based Salesforce chatbot enabling voyage, excursion, and dining bookings as well as booking updates; this chatbot was pivotal in a successful client contract signing.
- Designed and implemented an advanced Omni-Channel routing mechanism using Salesforce Flows and Apex to dynamically resolve customer issues, reducing the case abandonment rate by 78% (from 9% to 2%) and improving the weekly unassigned case backlog by 90%.
- Integrated third-party applications with Salesforce to deliver enhanced real-time reporting and dashboard capabilities, empowering supervisors to monitor operations with precision and identify areas for performance improvement.

Fashion Industry (Client A) | SFCC Backend Developer

- Diagnosed and resolved a critical Add to Cart defect that caused previously removed products to be inadvertently re-added to the cart, preventing duplicate orders and streamlining the purchase process.
- Resolved critical customer address storage issues, ensuring addresses were persisted correctly in Business Manager and eliminating the need for customers to re-enter saved address information during checkout.
- Optimized site-wide SEO and visibility configurations, improving search result rankings for the client's e-commerce website and increasing organic traffic and potential sales.

Fashion Industry (Client B) | SFCC Backend Developer

- Enhanced SFCC promotions and campaign configurations to strategically align product pricing with seasonal and event-driven shopping periods, boosting user engagement and increasing sales during key retail events.
- Updated SFCC meta files and site configurations to roll out the latest platform features across multiple storefronts, ensuring a consistent user experience and functionality across devices.
- Implemented loyalty program features using SCAPI calls for multiple scenarios, providing the client with deeper insights into user behavior and enabling more targeted marketing and improved customer retention strategies.
